WPS Health Insurance

May 27, 2015 statement from R.J. Pirlot, Executive Director of The Alliance of Health Insurers regarding today's actions regarding Family Care and IRIS Programs by the legislature's Joint Finance Committee:

"The Alliance of Health Insurers (AHI) applauds today's actions by the Joint Finance Committee in setting the pathway to help guide our state in its efforts to create a truly statewide quality-driven integrated delivery system for those currently served by Family Care while preserving IRIS (Include, Respect, I Self Direct) Programs. AHI looks forward to working with key stakeholders including enrollees, managed care organizations, the Department of Health Services and the legislature to develop a quality driven, outcome-based and cost efficient managed care program to help address the needs of the nearly 50,000 current enrollees as well as the growing future needs by January of 2017."

AHI member companies represent about two-thirds of the Wisconsin Health Insurance market. Collectively AHI member companies employ over 15,450 people in Wisconsin and maintain business offices located throughout the state. Its member companies provide health care coverage to roughly 2.3 million residents or approximately 68% of the total population enrolled in large group, small group, or individual commercial market plans. In addition, AHI member companies provide managed care services to approximately 421,700 participants in Wisconsin's BadgerCare and SSI MA programs or roughly 60% of the population enrolled in those MA programs under managed care.
